

Hi all,

I just wanted to send you all a note to thank you for your fantastic support throughout the 2 weeks we were at the Ryder Cup, but also stretching back to January when we first met some of you at the Supplier day at Hampden Park and supplying samples for the tastings, and the development work we did on the products afterwards as we developed the menu's.

I would also like to highlight your great support during the event with the extra volumes we required on top of the initial orders and your purchasing teams were very supportive. I also think that it was a great effort by your logistic teams who delivered throughout the night within the delivery windows and I didn't have to chase any deliveries throughout the fortnight.

I have worked on a lot of events over the past few years and this has to be one of the best I have worked on and the support from all the suppliers, you very much played a big part on delivering such an outstanding catering offering at this incredible event – it's a massive achievement.

I know all your products you supplied were very well received by the guests and the feedback received by all caterers and Scotland Food & Drink has been very good and showcased Scotland's reputation as a Land of Food and Drink.

Once again thank you.

Kind Regards

Mark Plevin

Customer Operations Manager for Sports, Leisure & Hospitality.
